A smart renovation

A stunning waterfront location in Sydney Harbour's Darling Point underwent a stylish pool makeover

This 30-year-old pool had seen better days, with a dark painted interior, dark tiles and concrete cancer in a number of areas.

Sydney-based Smart Pools and Renovations was called in to rescue the aging pool and create an elegant new future for it. The wall was demolished and replaced with frameless glass fencing, reintroducing the swimming area to the back garden and allowing the views from the harbour back into the property.

The interior of the pool was fully tiled in a mid-blue mosaic tile, with a new pool lighting system added to help highlight the pool colours.

The entire space was transformed into a fantastic open, bright area that has increased the value of all the units at the prestigious complex at Darling Point. •

Landscaping a difference

Why settle for just a new pool? Complete the package with an amazing landscaped garden

Mahony Landscapes specialises in all aspects of landscape design, construction, maintenance and landscape management.

Priding themselves on a high standard of professional work, the people at Mahony Landscapes ensure they exceed clients' expectations each and every time. Through an initial consultation process with clients, company director Ben Mahony creates a unique design, followed by the implementation phase.

Mahony Landscapes is also available for maintenance on the property to ensure the newly created garden remains exquisite throughout the year.

"At Mahony Landscapes, we believe in creating beautiful spaces that are functional as well, providing the client with an environment that stimulates and soothes the senses, adding not only value to your home but also to that of your daily life," Ben says. •
